

## Product details SD-01

CHIEFTEC's latest offer of Mini-Towers provide **maximum functionality** in scanty room thereby convincing by their yet-to-be-discovered features. At first sight, the three newcomers hardly differ from the standard mATX cases externally. At a second and closer look however, they are 21mm deeper and therefore more spacious. This, allowing for the **installation** of more powerful **standard ATX power supply** units as against in the past times, were only PS3 type power supply units with limited power could be built into these cases. Certainly, this is a strong point of argumentation for the **today's price-sensitive users**.

### Highlights:

SD-01

B-B

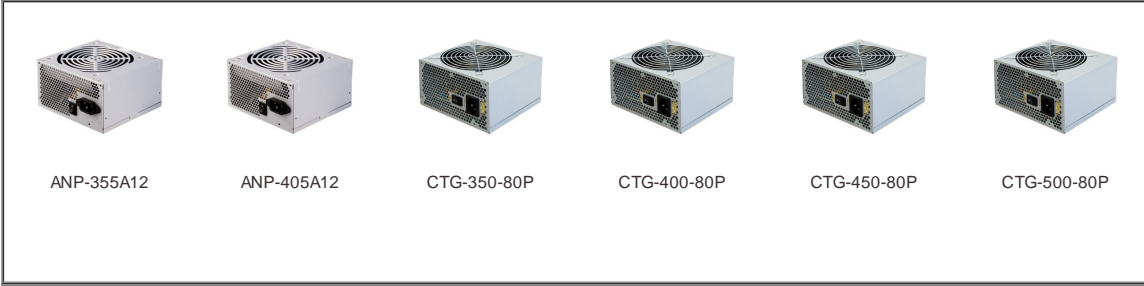

Standard **PS II Typ** PSU incl. 350W (GPA-350S)

## Technical data

Form factor:	mATX
Dimension (DxWxH):	377mm x 180mm x 355mm (stand +7mm)
Weight:	8,5 kg incl. PSU
External drive bays:	2x 5,25" / 2x 3,5"
Internal drive bays:	2x 3,5"
Power Supply:	350W <b>PS II</b> (GPA-350S)
